

The Energy and Marine Consultants

ABL ENERGY & MARINE SOUTH AFRICA

About us

ABL is the global, independent energy and marine consultancy working to de-risk and drive energy transition solutions across renewables, maritime and oil & gas projects.

We offer clients the deepest pool of world-class expertise across marine and engineering disciplines from 62 offices in 38 countries across Europe, Africa, Middle East, the Americas, Asia and Australia.

ABL specialises in a wide range of expert services to support our sectors during construction, operations, decommissioning and energy transition.

We are also a leading provider of engineering, design and advisory services in carbon-reduction technologies: electrification, hydrogen, emissions, energy storage, carbon capture utilisation & storage (CCUS), clean shipping and climate change risk analysis & adaptation.

ABL is part of the leading global consultants ABL Group ASA – delivering energy, marine, engineering and digital solutions to drive safety and sustainability in energy and oceans throughout the life cycle of a project or asset.

ABL in Africa

ABL has a long-established and growing presence in the African continent, spanning South Africa, Ghana, Nigeria, Senegal, and Egypt.

We have been at the forefront of the development of many of the continent's largest energy infrastructure projects, whilst also providing a wide range of expert services to drive safety and efficiency in maritime sectors in the countries where we are present.

ABL along with its sister company OWC – the renewable energy consultants, is also actively involved in the development of carbon-reduction and renewable energy initiatives with projects in South Africa, Namibia, Kenya and Egypt.

Where we are

- Cairo, Egypt
- Lagos Nigeria
- Dakar, Senegal
- Accra, Ghana
- Cape Town, SA
- Saldanha Bay, SA

Our Value

ON-THE-GROUND EXPERT
CONSULTANTS IN 6 OFFICES
IN 5 COUNTRIES.

+150 YEARS OF MARITIME LEGACY
DATING BACK TO THE SALVAGE
ASSOCIATION.

LOCAL RENEWABLE ENERGY AND
ENERGY TRANSITION EXPERTISE IN
SOUTH AFRICA.

WORLD-LEADING MARINE WARRANTY
SURVEY (MWS), SUPPORTING SOME
OF AFRICA'S BIGGEST ENERGY
INFRASTRUCTURE PROJECTS.

Some of our projects

EGINA FPSO, Nigeria

Feasibility study, engineering,
marine advisory and marine
warranty survey (MWS).

Port of Mombasa Solar- Powered Shore Power Project, Kenya

Feasibility study in power to x
project - integrating solar PV
into the port infrastructure for
net-0 cold ironing.

BP Tortue, Senegal

Marine warranty survey (MWS)

MWS on various projects Congo

Marine warranty survey on
various transportation &
installation (T&I) projects in
Congo for TotalEnergies.

Energy Yield Assessment on 2 GW of onshore wind, South Africa

Assessing energy yield as
part of technical due diligence
scopes on the development of
2GW of onshore wind.
