

ABL GREECE: MARINE SURVEYING AND CONSULTANCY

LOCAL INSIGHT. GLOBAL MARITIME ASSURANCE. 24/7 SUPPORT.

ABL has been present in the world's leading shipowning nation - Greece - since 1966, providing **trusted, independent and rapid technical support** to both national and international maritime stakeholders operating in the market.

Bringing together more than **170 years of maritime legacy, rooted in The Salvage Association**, with our multi disciplined technical expertise, extensive project track record and global footprint, ABL Greece provides seamless support across the full maritime value chain.

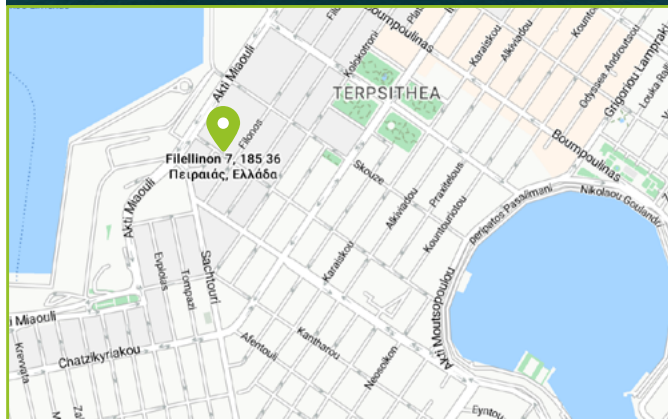

From shipowners, operators and shipyards, to insurers, legal advisors and investors, we deliver independent technical expertise

to support critical decision-making, de risk complex marine and ship construction operations, enhance the performance and resilience of maritime assets, and support in seeking the truth in marine casualty scenarios.

With access to ABL's global specialist network and 24/7 casualty response capability, our team is able to rapidly deploy the right expertise to site across Greece, the Ionian and Aegean Seas, and the wider Mediterranean region - ensuring consistent, high quality support wherever our clients operate.

Greece Maritime Key Profiles

Maria Dragoumerli

COUNTRY MANAGER
GREECE

Mobile: +30 6944313911

Office: +30 2104292 690

Email: maria.dragoumerli@abl-group.com

Specialist Expertise: Hull and Machinery (H&M) Surveys, Ship Repair, Salvage and Wreck Removal, Collision, Allision and Grounding, Project Management, Marine Warranty Surveyor, Technical Investigation, Casualty Investigation.

Maria is a chartered naval architect and member of RINA with over 15 years of experience in the maritime industry. Before joining ABL, Maria worked as technical superintendent responsible for all aspects of the day-to-day technical management and dockings of a fleet of handysize bulk carriers.

She started her career with LOC – now the L in ABL – based in the UK and held positions in Italy, China and Singapore, focusing on casualty response, marine claims and disputes. Maria has acted as company representative during salvage/wreck removal operations for a number of projects in Europe and Asia. She has also provided advice on cases including groundings, collisions, sinkings, container loss, and mooring failures and worked on-site to support marine casualties providing technical support and cost control.

Maria has extensive experience in Hull & Machinery claims, having provided advice on numerous casualties, supervised repairs and assisted in shipyard negotiations. She has attended many marine operations acting as Marine Warranty Surveyor (MWS) for lifting, load out and transportation of heavy and high-value cargo.

Vangelis Sallis

CONSULTANT MARINE SURVEYOR

Mobile: +30 6946867678

Office: +30 2104292 690

Email: vangelis.sallis@abl-group.com

Specialist Expertise: Hull and Machinery (H&M) Surveys, Ship Repair, Collision, Allision and Grounding, Project Management, Technical Investigation, Casualty Investigation, Suitability Surveys, Pre-purchase Surveys, Due Diligence.

Vangelis is a chartered naval architect and marine engineer with over 20-years' experience in the shipping industry, including 10 years in the wet cargo sector as technical fleet manager.

He has extensive experience in the day-to-day technical management of bulk carriers, heavy lifts and tankers (IMO I/II/III), including vetting inspections, ISM/TMSA audits, drydock management and supervision. He has previously managed layup and re-activation projects for a fleet of bulk carriers in Labuan, Malaysia, and Jamaica.

Vangelis is an experienced marine surveyor specialising in H&M, P&I, pre-purchase, due diligence, and suitability surveys of all types of vessels. He has been involved in numerous marine claims and disputes, having dealt with casualties such as groundings, collisions, machinery, propeller damage, and general average claims.

Nikiforos Pililis

CONSULTANT MARINE SURVEYOR

Mobile: +30 6986752785

Office: + 30 2104292 690

Email: nikiforos.pililis@abl-group.com

Specialist Expertise: Marine Warranty Surveyor, Hull and Machinery (H&M) Surveys, Towage approvals, Suitability Surveys, Ship Repair, Collision, Allision and Grounding, Project Management, Technical Investigation, Casualty Investigation, Suitability Surveys, Pre-purchase Surveys, Due Diligence.

Nikiforos is a naval architect and marine engineer with over 18 years of experience in the marine engineering sector, working primarily in Asia, Europe and the Middle East as a marine and offshore surveyor, subject-matter-expert, drydocking and major projects superintendent.

Specialised in managing major CAPEX projects and working with shipyards worldwide – retrofit energy saving devices, hull coating technologies, BWTS technologies, dual-fuel engines, and asphalt tankers.

He has extensive experience conducting surveys of all types of commercial vessels as well as offshore support vessels. In particular, he has covered operations and maintenance campaigns as superintendent engineer for asphalt tankers/bitumen carriers, as well as heavy crude – boscan crude, high flashpoint, tanker operations and maintenance.

Lucia Gonzalez

MARINE SURVEYOR

Mobile: +30 6972801982

Office: +30 2104292 690

Email: lucia.gonzalez@abl-group.com

Specialist Expertise: Hull and Machinery (H&M) Surveys, Marine Warranty Surveyor, casualty investigation, Suitability Surveys.

Lucia is a Naval Architect and Marine Engineer, and a member of ABL Group's RINA-accredited Engineering Development Programme (EDP). Through this programme, she is gaining broad exposure to diverse industries and disciplines across the maritime, renewables, and oil & gas sectors.

As part of her placements, she has worked with the ABL teams in both Paris and Piraeus, building experience in owner's engineering, marine surveys (H&M, P&I), and maritime operations as a maritime warranty surveyor (MWS). She has been involved in multiple marine operations, including lifting, loadouts, sailaways and transport of heavy and high-value cargo, as well as Hull & Machinery claims.
